THE PHILOSOPHY

For a decade, HANDVÄRK FURNITURE has been creating modern and minimalistic furniture for aesthetically inclined individuals and the homes they inhabit. Our inspiration is and always will be the Bauhaus movement. Close to our heart, this style period embodies the idea that to be truly great, a design should be at least two things: beautiful and functional. From the sourcing of materials to the design of each HANDVÄRK piece, this principle of simplicity runs through all aspects of how, what, and why we create.

MARBLE

Favoured by the Roman and Greeks in art and architecture, marble has always been synonymous with sophistication and elegance. This jewel of nature is created under immense pressure and temperatures through a process taking millions of years. Crystallisation, veining, and differences in colour are beautiful irregularities that give each piece of marble its unique expression and character.

Says Who

Kasper Meldgaard and Nikolaj Duve founded SaysWho back in 2010. Their solid business understanding and a wide array of skills within design, construction, and engineering made them a great team from the start. Their desire to make smart and innovative solutions define their concepts. They use 3D as a concept development tool to verify and balance surfaces, shapes with construction and comfort.

Design Paragon Series

Laura Bilde

Laura is a freelance designer based in Copenhagen. With a strong grasp on concept, materiality and form, Laura works across both product and interior design. She's driven by tactility, curiosity and design that can be experienced both on a physical and emotional level.

Aleksej Iskos

Aleksej Iskos was born in Ukraine and since 1991 lives and works in Copenhagen, Denmark. Graduated from The Royal Danish Academy of Fine Arts, School of Design. Since 2010 co-founder and partner at Iskos-Berlin Design. In 2018 established Iskos Design. Aleksej appreciates design not only for its practical purpose, but also for what it communicates to us, for the emotions it creates, for the memories it awakes - for the story it tells us. To tell this story, the designer appeals to both sense and sensibility, and the function becomes poetry. It is this poetry we fall in love with.

Design Shadow Mirror

THE LOCATION

The collection was shot at Maglemosevej 20: The legendary sculptor Axel Poulsen's home in Charlottenlund, Copenhagen, where art is chiselled, painted, and cut directly into the walls, ceilings, stairs, and furniture. The artwork on Maglemosevej 20 is, at least figuratively speaking, Poulsen's greatest masterpiece. To this day, it stands with many of his sculptures and works as an eternally valid testimony of one Denmark's finest artists.
